

# Seidou

The following article is currently NOT APPROVED for in-character usage.

Seidou was explored by the [Scientific Studies Service \(SSS\)](#) as part of their exploration of [UX-23](#) in [YE 31](#). They named it Seidou *sanctuary* because of its location, and because they felt it would make an ideal location for people to be sent to for safe keeping.

The [SSS](#) established a small settlement from which they have been conducting their surveys of the planet.
