

Shugosha II

Shugosha II is the second [planet](#) in the [Shugosha System](#); it is part of the [Yamatai Star Empire](#).

About Shugosha II

Like most worlds in the [Yugumo Cluster](#), Shugosha II was discovered, explored and colonized by the [Fifth Expeditionary Fleet](#) in [YE 29](#). Development on the planet was slowed during the planet's short time as part of the [United Outer Colonies](#) which focused on development in the [Siren System](#). The planet returned to the control of the [Yamatai Star Empire](#) in [YE 33](#). The planet is a rocky desolate terrestrial world with a thin unbreathable atmosphere. The four Yui Mining Colonies on the planet are all [Katsuko-Class Colony Installation](#) that have been tooled and purposed towards resource extraction.

In [YE 42](#), Shugosha II was selected for further development by the [Yugumo Corporation](#) that intends to expand the current resource extraction industry on the planet. They added a [PAINT](#) station to the Yui I Mining Colony, as a first step to building this world up.

Statistics for Shugosha II	
Type	Terrestrial
PAINT Station	Yes
Facilities and Bases	Yes
Colony	Yui Mining Colonies I, II, III, and IV
Population	2,300,837
Moons	Shugosha IIA and Shugosha IIB

Places to Explore or Salvage

Shugosha II has a few interesting locations:

Underground Cave System

An extensive network of underground tunnels and caves exists on Shugosha II. They have never been explored, but some sensor scans indicate that some of the tunnels are not part of the natural formations and have been dug out in the last one thousand years.

Abandoned Tange Hideout

A crashed [Seiza-Class Cargo Hauler](#) sits below a mountain ridge approximately one hundred kilometers from the Yui I Mining Colony. The Cargo Hauler was used as a hideout for [Motoyoshi Kiyoko](#) and her followers between [YE 33](#) and [YE 36](#). It was abandoned when the [Star Army of Yamatai](#) began to patrol the

region more. It is unknown what the contents of the cargo ship are and it has not been explored as of YE 42.

Orbital Assets

The [Star Army of Yamatai](#) established a "[Guriddo](#)" Defense System as part of the Shugosha System Defense Plan laid out by [Ketsurui-Motoyoshi Katsuko](#) in YE 42. The system includes:

- 20 [Ke-H5-W3200 "Kyouheki" Defense Platforms](#) each typically controls two [Ke-H5-M3200 "Nesuto" Docking Platforms](#), but can handle more.
 - 10 [Ke-H5-M3200 "Nesuto" Docking Platforms](#) each with 18 [Ke-H5-W3201 "Suzumebachi" Attack Drones](#)
 - 180 [Ke-H5-W3201 "Suzumebachi" Attack Drones](#)

The planet also has an orbiting network of [Emrys Satellites](#) for communications that were deployed by the [Star Army of Yamatai](#) in YE 36.
