

UX-11 IX

The ninth planet in the [UX-11 System](#) is habitable but currently only holds microbial life. It can be very cold on the surface.

Because of high obliquity (exceeding the 54° threshold), the equator is cooler, on average, than the poles of the planet and the changing of the seasons brings extreme climate change.

In [YE 34](#), the [YSS Eucharis](#) visited the system and deployed a [Orbital Geological Survey Platform](#) in orbit of this planet.

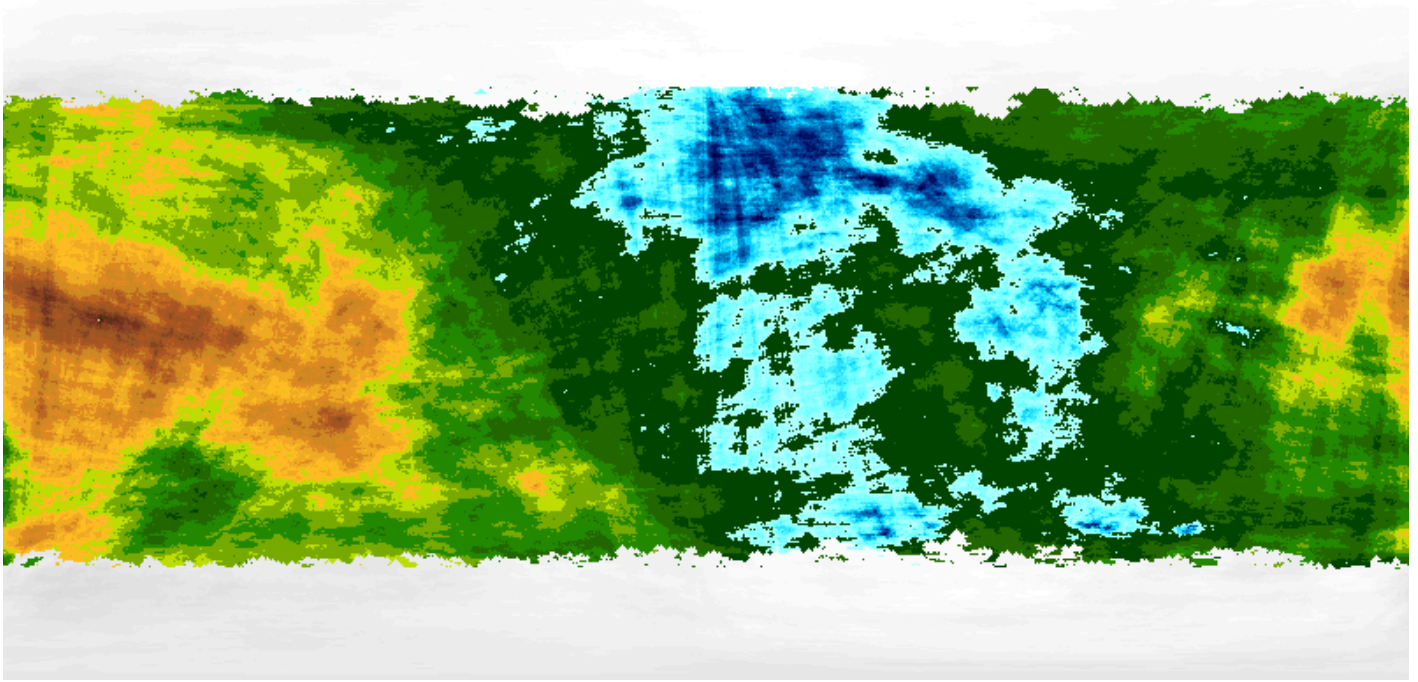

In [YE 35](#) the [Scientific Studies Service \(SSS\)](#) deployed a [Ke-P6-01a Bisen Lighthouse](#) on the surface of the planet at the request of the [Star Army of Yamatai](#).

The [Yamatai Star Empire](#) placed an orbital communications network of [Emrys Satellites](#) around this planet in [YE 36](#).

In [YE 36](#), this planet became part of the [PAINT](#) public transportation system and has a [Tenba](#) that regularly visits and provides passenger flights to [Shinjuku Starport](#) on [Hanako's World](#). [Trinary Star Shipping](#) operates a small storefront at the PAINT station.

In [YE 41](#), this planet was conquered by forces from the [Interstellar Kingdom Of Kuvexia](#) during the [Kuvexian Invasion of YE 41](#).

Item Drop

In [YE 34 Hanako](#) purchased a “grab bag” bulk salvage from an unknown supplier which was dead dropped on this planet. Though most were picked up by the [YSS Eucharis^{1\)}](#) – including the retrieval of two Elysian slave girls, an Occestan male Lorath in cryo-freeze, and most notably a derelict [Ayana-Class Escort](#) – some of the cache was left behind on the icy world. These were:
