

Star Army Fleet Processing Center

The Fleet Processing Center (aka Zero Fleet) was a sorting station for older starships from the great million-ship [Nekovalkyrja](#) war fleets, intended to modernize starships and divide them into newer, smaller fleets.

History

The Fleet Processing Center was originally at [Hoshi no Iori](#). It was most heavily used in [YE 27](#).

When the Mishhuvurthyar [attacked Hoshi no Iori](#) in [YE 28](#), much of the Fleet Processing Center's facilities were heavily damaged and its responsibilities were transferred to the new [Nataria Fleet Depot](#) at [Nataria](#).

By [YE 29](#) the Fleet Processing Center was mostly inactive.

The Fleet Processing Center's final task was to disassemble large numbers of older [Star Army of Yamatai](#) vessels whose classes were being retired from active service. The Processing Center was formally closed in [YE 30](#).
