

# Mass Cloning Facility, Type 30

The *Mass Cloning Facility* is a standardized factory complex that produces infantry soldiers for the [Star Army of Yamatai](#). The Facility is snowflake-shaped, with 5 cloning wings and one administration and processing wing. Each cloning wing can make up to 50 bodies simultaneously.

Mass Cloning Facilities (sometimes referred to as “Trooper Poopers”) are typically constructed of either:

- Locally available materials such as stone, metal, or brick
- Prefabricated [Durandium Alloy](#) components shipped via starship, often surrounded with [Sandbags](#).

## Production Capabilities

Mass Production Infantry are typically [Nekovalkyrja, Type 33](#) but can also be [human](#), based on the needs and desires of the Star Army. Strong, healthy, genetically engineered bodies are artificially generated in hemosynthetic tubes. Each body is then infused with consciousness via a [Mental Copy Machine](#) with all the necessary skills for their job. Soldiers are then equipped with basic weaponry produced in the lower levels of the facility.

- ~~500 Humans~~-[Mass Production Infantry \(YE 30\)](#) ~~per hour~~ (prohibited by Yamataian law)
- 250 [Nekovalkyrja, Type 33 Mass Production Infantry \(YE 30\)](#) per hour (most common) - max of 6,000 per day
- ~~250 Yamataians~~ per hour.

Nekovalkyrja take more time because of their more complex brains and gravity manipulation organs. “Human” also includes [Human](#), [Nepleslians](#), and [Elysian Plebeians](#).
