

Third Expeditionary Fleet

The Third Expeditionary Fleet was a fleet in the [Star Army of Yamatai](#). It was disbanded in [YE 33](#) due to ongoing logistics issues and to free up ships for combat fleets.

Early History

The Third Expeditionary Fleet's original mandate was to explore and patrol the [Yamatai Star Empire's](#) northern frontier. It was headquartered at the [Tami](#) system and was led by Taisho [Jal, Araiah](#).

After Araiah's retirement, Taisho [Ketsurui Ayame](#) assumed command of the Third Expeditionary Fleet.

When Taisho [Ketsurui Ayame](#) left for a post on [Yamatai \(Planet\)](#), the fleet was temporarily left without a fleet admiral. This might have led to a relaxation of security protocols around the fleet.

Terrorist Attack on Tami

[Elysian](#) separatists made a daring attack on the fleet headquarters at [Tami](#). During the attack, the [Tami](#) Star Fortress was crippled, and the upper levels of the Third Expeditionary Fleet's command structure were decimated.

Rebuilding at Anisa

Taisho [Henry Chen](#) was given the task of piecing the broken fleet back together. The fleet headquarters were relocated to [Anisa System](#), new ships were commissioned and new officers were recruited. Accordingly, the fleet was re-assigned the responsibility of exploring and patrolling the Empire's northeastern frontier.

Henry took the opportunity to make the fleet one of the most culturally diverse in the [Star Army of Yamatai](#), which made it especially suitable for diplomatic missions.

Yui's Purge

When Taisho [Ketsurui Yui](#) decreed that only [Nekovalkyrja](#) and [Yamataians](#) were allowed to remain in the [Star Army of Yamatai](#), many [Nepleslians](#) and [Geshrins](#) in the Third Expeditionary Fleet willingly upgraded to [NH-22C Yamataian](#) bodies. However, many others, along with [Elysians](#), and minor species such as [Elves](#) and [Trolls](#), left the Star Army altogether. This left the command structure of the Third Expeditionary Fleet in tatters.

Rebuilding from Valaad

After the decimation of most of the fleet's ships during the failed operation at [Valaad \(An Rhy\)](#), the 3rd XF underwent restructuring under the guidance of Fleet Planner Shosho Kawazoe Sekai, with ships donated by the Fifth Expeditionary Fleet and from Nataria Fleet Depot. The protocol of not reassigning used registry codes was also adopted at this time, as a way of honouring those who gave their lives in service.

The Khorovarolor Incident

The 3rd XF provided aid in the form of its Jihi-class medical ships as a virus spreads among the natives of Khorovarolor. <https://stararmy.com/roleplay-forum/threads/2392>

The Third Expeditionary Fleet is currently commanded by Taisho [Nakamura Miku](#) and is based out of the [Anisa System](#) system.
