

Standard Star Army Shuttle Bay

The floor is a glossy, polished black and the walls are made of typical gray paneling. From the door one can look out directly into space through the forcefield in the rectangular openings on either side of the ship. Gravity in this area is 1G. If the bays are going to be used for some recreational purpose, the ship has netting that can be attached to rings that line the interior about a foot inside from the forcefield; these nets prevent people and objects from accidentally being pushed, thrown, or stumbling into the vacuum.
