

YSS Kikyō

The YSS Kikyō is a [Star Army of Yamatai](#) vessel in the [First Expeditionary Fleet](#) and is a [Plumeria-class \(2E\) Medium Gunship](#). The ship has been a part of the [8th Squadron](#) through many battles. She is captained by [Taisa Naka Nai](#).

YSS Kikyō History

The ship was heavily involved at [Mitsuya System](#) in the [Task Force Torch](#) where she lost her sister ships in the squadron, of which there were three. The Kikyō's own bridge suffered critical damage and an [engineer](#) assumed control of the ship in order to guide her to safety.

Quote from [YSS Sakura MISSION 8, PART 1: Mishhuvurthyar Invasion](#)

"Direct hit on Kikyō's bridge! This is Juni Asahiro, commander is not responding, switching to control from engineering!"

She was then then captained in [YE 34](#) by [Taiyou Hoshi](#).

Many months after Taiyou Hoshi's rank up to [Chusa](#) in [YE 36](#), she transferred to the [YSS Imperator](#) as the XO and left the YSS Kikyō in good hands.
