

Ke-V9-V3300 Life Support System

The Ke-V9-V3300 Life Support System was developed for use on the [Ke-V9 "Nodachi" Assault Fighter](#) and became available in [YE 33](#).

Specifications

General Information

Class: Ke-V9-V3300 Type: Life Support System Designers: [Ketsurui Fleet Yards](#). [Murasaki Emiko](#)
Manufacturer: [Ketsurui Fleet Yards](#) Production: Mass Production

Features

Gravity Control

The Ke-V9-V3300 incorporates standard [Ketsurui Fleet Yards](#) artificial gravity hardware. This technology serves two purposes: the first is to provide standard 1G gravity for occupant comfort. Secondly, it provides inertial compensation to reduce the effects of extreme acceleration on ship occupants.

Atmosphere

The Ke-V9-V3300 atmosphere processing subsystem uses a variety of [scrubber](#) devices for air purification. The system has an emergency air reserve sufficient for twelve hours should primary and auxiliary power sources fail.
