

BR-28 Series Battery Magazine

The [Ketsurui Zaibatsu](#) BR-28 is a rechargeable battery magazine for [Star Army of Yamatai](#) energy pistol sidearms. It was originally made in [YE 28](#) as part of the [Nekovalkyrja Service Pistol, Type 28](#) and is now used in several other weapons.

Description

The battery slides into the back of the NSP and has metal contacts on one end. The other end features a small electronic display to show the amount of pulses remaining based on its current energy levels. A fully charged BR-28 series battery holds enough power for 50 to 51 standard energy blasts.

The batteries have a usable life of about 10 years before the internal parts need to be replaced, so the earliest ones are starting to go bad.

Models

The original model had a sharp end that was problematic and was quickly replaced by the BR-28A which has a more rounded user-facing end.

Model	Notes
BR-28	Original model that came with the Type 28 NSP in YE 28 ; Discontinued
BR-28A	Came with Type 28A NSP. Rounded back. Many are starting to fail due to age.

Model	Notes
BR-28E	Slightly more blocky version that comes with the Type 30 and Type 33 NSPs

Also note there is an aftermarket large-capacity version of this magazine: [YB-28A Triple-Power Magazine](#)

Colors

The BR-28 series batteries also come in a variety of colors to match various weapons.

Color	Color Name	Hex	Used For
	Gunmetal	#6677AA	Standard Color

- Silver (for civilian model pistols)
- Pearl
- Chrome Gold
- Black
- Dark Gray
- Camouflage green

The color of the graphics on the charging display panel can be adjusted and comes in blue, teal, green, pink, red, and orange.

Weapons Using the BR-28 Series
