Kxi'ran

The YSS Nozomi and YSS Mirai once stopped here in YE 27 to visit the beach. Ketsurui Yui, Hanako, Kai Ashigari and Eikan Minato were among those present. At that time it was inhabited by the Ixari; their species, however, has vanished since then.

This system was previously a part of Yamatai Star Empire but was ceded to Democratic Imperium of Nepleslia in YE 34.

The beach was a little windy, but it was quite warm and pleasant, not only to the skin, but to the eyes as well. Green vine-like plants and tufts of grass adorned the tops of the beach, with a wide strip of powdery white sand separating the vegetation from a very clear-looking cerulean water. Little shells and the occasional exotic sea creature were scattered about, and in the distance, a large black tower leaned diagonally, jutting miles into the sky.
