Elysia

- The 4th Elysian Republic, a group of Elysians who broke away from the Elysian Celestial Empire and formed their own faction in YE 35, are almost completely annihilated by the Mishhuvurthyar during battle_of_purgatory. Only a few thousand Elysians - out of an original fifty thousand - are able to survive the battle and the dangerous journey to the Osman System.
- Following a lengthly stint of being mothballed at the Elysian Naval Arsenal, the ECS Panopteles is recommissioned and launched in the final month of the year. Its mission is to explore and chart out the systems of the Elysian Expanse in preparation for a major colonization effort by the Elysian Celestial Empire.
